Penny	Honed	11	11.46	19.59kg	69.10	72
Square	Honed	11	11.46	19.06kg	69.10	72

GENERAL:
Natural Stone is subject to variation in colour, veining & texture, this is the beauty of natural stone. We recommend you check product before installation, open various boxes until a desired blend is achieved.

No warranty claims will be accepted once product is installed. INSTALLATION: All substrates should be free from contaminates and prepared according to the adhesive manufacturers installation specifications. We recommend use of a white adhesive, please refer to your preferred adhesive supplier. In areas such as shower bases we recommend that the mosaic should have adhesive applied (buttered) on the back of each sheet as well as on the base, to get maximum coverage of adhesive on the meshed surface. Prior to grouting, clean mosaics with a neutral cleaner, never use acidic or high alkaline cleaners as they will alter the surface of the product. Apply one coat of a natural sealer with a lamb's wool applicator or soft cloth. Buff off any excess sealer 15 minutes after applying, this will protect the marble from grouting stains and allows easier removal of grout haze. Unsanded grout is recommended as it will not scratch the surface. It is not recommended to use black grout on light marble. After grouting clean mosaics with a neutral cleaner and allow to dry completely before applying natural sealer, this will protect against staining. If caulking is required do not use acid cure silicone, only neutral cure silicone is recommended. If unsure in regard to laying, grouting, sealing or cleaning natural stone, we recommend doing a test prior to application.

ONGOING MAINTENANCE:
Do not use anyacid based cleaners, strong alkaline cleaners, or cleaners that may contain abrasive chemicals. Only neutral cleaners (i.e dishwashing detergent) are recommended. Avoid metal scourers, always use a soft clean cloth.
